

For more than 90 years, Saxco has served the food and beverage industry with a distinct focus on the wine, beer, spirits and NAB markets. We are a nationwide, full-service packaging solutions supplier focused on providing a world-class customer experience founded in a deep understanding of the industry and fueled by our commitment to customer success.

In 2016, Saxco International, LLC, acquired Brick Packaging because we saw a tremendous company that had the same culture and customer focus as Saxco and was deeply entrenched in the region. Since then, Brick has served the region's unique needs, mainly as a standalone business. To bring additional resources and improved service levels to Brick customers, we will leverage Saxco's scale and operational capabilities through the integration of Brick systems and processes into Saxco. The goal is to remain local and leverage the scale and efficiencies of the combined businesses.

We have built our business on trust, serving small to commercial beverage producers with excellence and encourage you to consider how our large scale and continued local specialization can support and improve your business:

Diversity of Supply – Gain broader access to products by leveraging our world-class global network of suppliers

Business Growth – Easily scale your business with demand planning, warehousing, and inventory management services

Team Extension – Allow Saxco to work on your behalf, utilizing a Dedicated Packaging Consultant backed by a Quality Assurance Team, Demand Planning Team, and others

We will bring you the best of our combined businesses as we complete the integration of our teams. We understand that you rely on us, and we take that responsibility seriously. You have our commitment to communicate changes ahead of time. If you have any questions in the meantime, please reach out to info@brickpackaging.com.

We are thrilled to continue to serve this unique region that provides a needed diversity in American wines and look forward to uncovering more ways that we can participate in the success of the region.

Best regards,
